

FALL 2010

**LEED INFORMATION
PRIMERS/LEVEL 5**

To Whom It May Concern:

PRO-GYP, Inc. (PRO-GYP) certifies and provides the following information in achieving LEED Credit for the specification of PRO-GYP finishing compounds.

LEED Recycled Content Credit 4.1

PRO-GYP products contain the following recycled content. Percentages are averages by weight. (*Below information is based on the corrugated packaging used per 50 lbs box)

Post Consumer Recycled Content	10%
Pre Consumer Recycled Content	7.4%

LEED Local/Regional Materials Credit 5.1

PRO-GYP products are manufactured within 500 mile radius of the counties of LA, Orange County, Riverside and San Diego

The information below is given so an applicant may determine the distance in statute miles from the project site to the manufacturing facility.

Latitude	34.687306N
Longitude	116.990472W

PRO-GYP products are manufactured within 500 mile radius of the states of Idaho, Oregon and Washington

The information below is given so an applicant may determine the distance in statute miles from the project site to the manufacturing facility.

Latitude	45.523452N
Longitude	122.676207W

LEED EQ Credit 4.2 LOW VOC

PRO-GYP Prime Coat and Level 5 products have <3 g/l of VOC's.

Note: LEED Credit section references are suggested applications of PRO-GYP to the LEED Green Building Rating System. Determinations of product attributes for LEED Certification of a building project are the responsibility of the LEED Applicant.
